November 2009

October Meeting

President John gave us an official date for the fish fry of November 7th. Turned out this was a good pick as it was a beautiful day. Treasurer Bill updated us on the club's finances as of October 21st with \$5001 in the runway fund, \$558 in the general fund, and the soon to be spent \$2500 in the field fund. Significant money out last month was \$65 for newsletter and \$263 for the float fly picnic. Field Marshal Gary says the field is looking good but has received several complaints. The two biggest being dog crap on the field and the junk surrounding the shed. He also asked that flyers parking on the flight line park closer together and if you're not flying DO NOT PARK ON THE FLIGHT LINE. Gary Wadsworth is continuing his search for a

second field and asked that the smokers please be more careful about smoking near the doors of the school(if we lose our meeting privileges at the school it will be permanent). New member Jesse Stickley won the plane raffle and Steve Parsons name was drawn for membership raffle, but was not present. November's prize should be about \$375.

Club 40 Racing

Don Holmes is working on organizing a Club 40 Racing event. It will be a *one design* event using the World Model Skyraider Mach II. Stegall Hobbies is offering us a club discount price for the Skyraider. The plane is offered in four solid colors (red, yellow, white, and orange). It can be shipped to your door for \$95 or for

a \$105 with a trim package. Middle River Hobbies will be offering the recommended Thunder Tiger Pro 40 for \$85.99. There are currently a half dozen members working on racers.

Check out <http://www.houseofplyon.com> for more info.

In the Air

Don't ya wish you had air brakes for fast landings, well there may be a solution. Try Crow Landing or diving straight at the ground and pulling up just before impact. Just kidding but if you have an Ultra Stick with flaps or a similar aircraft with a computer radio you could pull this off. The flaps are fully extended and both ailerons are raised up creating air brakes that cause enough drag to allow this. Try it.

Some Men you Just Can't Reach

Apparently there are still one or two characters who believe that if they can stuff their trash in a butt jug that its okay. Its not, next time, put trash in your own butt and take it with ya.☺

From The Bird Field Little Bird

The bird reports that Gary Likens has successfully flown and landed an AT-6 at Bird Field.

Membership Raffle

The raffle stands at a \$344 prize at the moment. It will grow as members buy into it. For those unsure how it works: You contribute \$1 at the meeting and put your name in the book for that evening's drawing. Everyone in the club is in the raffle "hat." A name is drawn, from the "hat." If it's your name and you have your name in the book for that meeting, you win 80% of the pot. If the person drawn isn't at the meeting or didn't contribute the \$1 for that meeting, the pot is heldover till the next meeting and continues to grow.

Member News

Loren Baker is looking like his old self and says his cancer is contained. Good news for all of us.

MIDDLE RIVER HOBBIES
