Bird Field

A few hearty individuals are keeping the fires burning at Bird Field. We are now preparing for the next mowing season. **Mike Smith** will continue to keep the grounds cut. AND **Tom Rapanotti** will be taking the mower deck off and inspecting for weaknesses that need reinforcing. **Shawn Reed** has his 3-D Printer back on line. You can see his progress on printing a new plane on Sunday Flyers Facebook Group [“Sunday Flyers RC Flying Club.”](#)

Remote ID

Still waiting for FAA approval of our site as an AMA FRIA site (FAA Recognized Identification Area.) When approved, we will not have to buy Remote ID tags. I submitted the form on December 11, 2022. Nothing to do except wait.

Wood

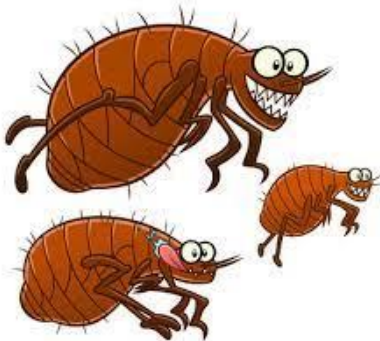

At the last meeting, we agreed to continue to use the burn barrels and buy another cord of wood, as needed at \$ 250. Try not to use it on mild days. We will still be needing it next November / December. **John Coffey** secured 2 new barrels (at no cost) if needed.

Maintenance

Same as noted in last newsletter. Not knowing the future of Bird Field, we agreed that the barn door should be replaced or repaired. The balance of the building will only be repaired if some building materials become available from construction overruns. So, no stove and no moving back into the club house for the winter.

Flea Market

Shawn to host another Flea Market early Spring 2023.
